***Claim Objections***

1. Claim 21 is objected to because of the following informalities: Claim 21 status should be changed to ---previously amended--- since there was no change made to claim 21 with status listed as "currently amended".  
Appropriate correction is required.

***Claim Rejections – 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 21 is rejected under 35 U.S.C. 102(e) as being anticipated by Iacono (7,058,032).

Regarding claim 21, Iacono (7,058,032) discloses for use in a wireless telecommunication system comprising a base station and a plurality of mobile stations, a method for minimizing a search time for selecting a best fit transport format combination (TFC) from a transport format combination set that is assigned to at least one mobile station by said base station, said method comprising the steps of:

applying an iterative TFC selection algorithm to said transport format combination set to identify a TFC candidate that is a best fit candidate in said transport format combination set (col.6, lines 4-41);

iteratively reducing a size of said transport format combination set to a smaller size (col.6, lines 4-41); and

iteratively searching said smaller size of said transport format combination set to identify best fit TFC candidates (col.6, lines 4-41).

***Allowable Subject Matter***

4. Claims 2–20 are allowed over the prior art.
5. Claims 22–26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. Applicant's arguments filed 3–15–08 have been fully considered but they are not persuasive.

A/. Applicant argued that claim 21 incorporated the limitations of allowed claim 2.

In reply, applicant is directed to claim 21 listed as currently amended; however, no change was made to previous rejected claim 21.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
